[LinkedIn](#) | [Github](#) | [Portfolio](#)

CAREER OBJECTIVE

Motivated BCA student with hands-on experience in full-stack web development using Django, React, and SQL. Passionate about building scalable applications and learning modern software technologies. Seeking an entry-level software development opportunity to apply and expand technical skills.

EDUCATION

Bachelor of Computer Applications (BCA)

Assam Down Town University | 2023 – Present

- ▶ Currently in final semester
- ▶ Relevant Coursework: Web Development, Computer Networks, DBMS, Operating Systems, Algorithms, Cyber Security
- ▶ Project: Tyre Inventory & ERP systems, Library Management System and Full-stack web applications.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, Java
- Frontend: React, HTML, CSS, Tailwind CSS
- Backend: Django, Node.js
- Databases: MySQL, MongoDB
- Tools & Platforms: Git, GitHub, VS Code, Linux, PyCharm

PROJECTS

Tyre Inventory & ERP System

[GitHub](#)

Python · Django · HTML · Chart.js · SQLite · Javascript · Tailwind CSS

- ▶ Developed full-stack tyre inventory and ERP management system using Django and SQLite
- ▶ Implemented invoicing, supplier management, authentication, and analytics dashboard
- ▶ Designed responsive admin interface using Tailwind CSS and Chart.js
- ▶ Built inventory tracking and order workflow management modules

Brain Tumor Detection AI

[GitHub](#)

Python · TensorFlow · CNN · OpenCV · Keras · REST Framework

- ▶ Developed an AI-based brain tumor detection system using Convolutional Neural Networks (CNN) for medical image classification.
- ▶ Trained and tested the model on MRI scan datasets and integrated prediction functionality into a Flask-based web application interface.

Portfolio Website

[Live Demo](#) | [GitHub](#)

React · Tailwind CSS · Vite

- ▶ Designed and developed a responsive personal portfolio website showcasing projects, technical skills, certifications, and GitHub repositories.
- ▶ Implemented modern UI components, responsive layouts, smooth navigation, and project showcase sections using React and Tailwind CSS.
- ▶ Integrated resume access, social links, and deployment workflows for professional online presence.

INTERNSHIP & EXPERIENCE

Software Development Intern

Kuensel Corporation Limited

July, 2025

Changzamtog, Thimphu

- ▶ Developed a web-based Library Management System using Django and SQLite for managing books, borrowers, and issue/return workflows.
- ▶ Implemented CRUD operations, authentication systems, and responsive user interfaces for administrative management.
- ▶ Worked with Python, Django, HTML/CSS, and database integration to build and test backend functionalities.
- ▶ Participated in debugging, feature enhancement, and system testing during the development process.

CERTIFICATIONS & AWARDS

Google AI Essentials Certificate — *Coursera*

2024

Javascript (Intermediate) Certificate — *HackerRank*

2026

Cloud Computing Security — *Coursera*

2024

EXTRACURRICULAR & ACTIVITIES

- ▶ Active learner in full stack development, AI/ML, and cybersecurity technologies.
- ▶ Regularly build and maintain projects on GitHub using Django, React, and Python.
- ▶ Completed technical certifications in JavaScript, React, Cloud Security, and AI fundamentals.
